Measuring Progress, Inspiring Change

The UAE has set ambitious goals for inclusion, guided by its National Policy for People of Determination. Behind these goals are compelling statistics that tell us who is being reached, who is being left behind and how policies translate into lived experiences. Today's figures provide us with more than just measurement – they serve as a road map for empowerment, accessibility and equality across every sector of society. We are proud to play our part in providing products and services to improve the lives of people of determination across the region.

The number of students with extra educational needs enrolled in private schools in Abu Dhabi more than doubled (a 116% increase) from 2023 to 2024 under a new inclusive education policy

Resolution No. 43 of 2018 supports people of determination by enabling access to labour market opportunities and ensuring non-discrimination

The number of schools rated Outstanding for inclusion nearly doubled (from ~7% to ~12%).

82% of transport-related buildings & facilities in Dubai have been retrofitted to be compatible with the Dubai Building Code - Accessibility for People of Determination.

As of 2024, 326 people of determination are employed in Dubai government entities (237 of them being UAE nationals). This is part of an “Inclusive Employment 2024” push

In Dubai, the DGHR report 2024 shows structured programmes to integrate people of determination, not just one-off hires but pathways, training and career development.

Advances in Accessible Tourism across The UAE

Tourism in the UAE is not only thriving – it is becoming more inclusive than ever. With dedicated strategies, landmark initiatives and a growing focus on accessibility, the UAE is positioning itself as a model destination for People of Determination.

From Dubai's Accessible Travel and Tourism Team to global conferences hosted in the region, the UAE is actively shaping an environment where every visitor, regardless of ability, can experience its culture, hospitality and innovation. These statistics highlight the scale of progress and the country's commitment to inspiring change in accessible tourism worldwide.

Our mobility rental services in the region help to ensure that visitors to the UAE can experience the UAE using equipment that enables inclusivity and enhances their mobility during their visit.

- The UAE is actively cultivating a multi-billion dollar inclusive tourism market, **acknowledging that over 1.3 billion people globally have accessibility needs.**
- **Dubai has launched a dedicated Accessible Travel & Tourism Team** to enhance accessibility across airports, hotels, attractions and transport.
- Through its strategic vision, **the UAE is setting a regional standard** – often described as a model for an accessible Arab world.
- **The UAE has hosted significant inclusive events**, such as the Special Olympics in Abu Dhabi, which brought international visitors (athletes, support teams) and spotlighted the country's capacity for accessible hosting.

more info

Wheelchairs Empower Mobility and Independence

Wheelchairs provide essential freedom of movement, enabling individuals with mobility challenges to carry out daily tasks, engage socially, and access education, work, and leisure. We offer a range of wheelchairs—including manual, paediatric, folding, and active models—designed to meet various needs.

More than just medical devices, they are tools of empowerment, promoting independence, dignity, and an improved quality of life.

Mobility Scooters

Scan for
more info

Mobility scooters are essential for individuals with limited mobility, offering independence and freedom

They provide a practical solution for daily activities like shopping, visiting friends, or enjoying outdoor spaces, reducing reliance on others.

By improving accessibility and confidence, scooters keep users active, socially connected, and engaged.

They also enhance safety and comfort, making them vital for maintaining your quality of life.

Powerchairs

Scan for
more info

Powerchairs, or electric wheelchairs, are vital for individuals with significant mobility challenges.

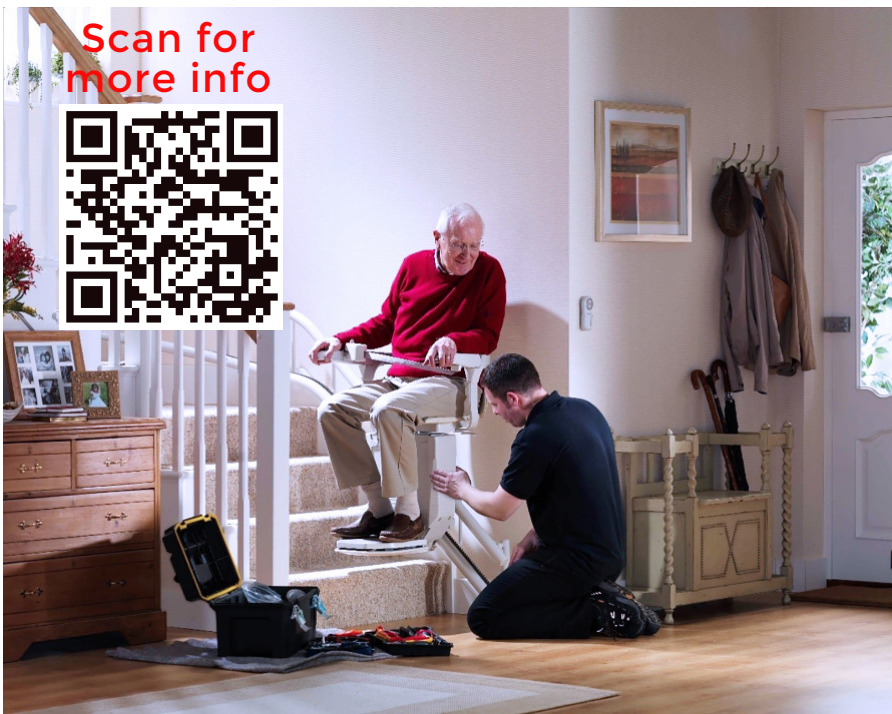

Offering powered control, they provide independence, comfort, and easy navigation across environments.

This reduces strain on users and caregivers, while improving access to daily activities, social life and work.

Powerchairs empower people to lead more active and independent lives.

Stairlifts

Stairlifts are a vital mobility solution for individuals who find stairs difficult or unsafe to navigate

Available in straight, curved, or modular designs, they enable safe, easy movement between floors while reducing strain and the risk of falls.

By supporting independence at home, stairlifts help users stay in familiar surroundings and enjoy full access to their living space upstairs or downstairs.

Patient Hoists

Fitted and mobile hoists are essential for individuals with severe mobility limitations

Fitted and mobile hoists provide a safe, efficient way to transfer between beds, chairs and other areas in the home or care setting.

By easing physical effort for both users and caregivers, they enhance comfort, dignity and safety, while promoting independence, supporting

Recliner Chairs

Riser recliner chairs are an important aid, combining comfort, support and practical assistance for those with limited strength or movement.

they make standing up or sitting down safer and easier, reducing strain on joints and muscles.

The reclining function offers relaxation & postural support, helping improve circulation and ease pressure. By enhancing both comfort and independence, riser recliner chairs play a valuable role in maintaining quality of life at home.

Products & Services we provide

Choosing the right paediatric wheelchair is about far more than wheels – it's about support, fit and future growth. A correctly fitted chair ensures optimal positioning for posture, comfort and safety, while adjustable features allow the chair to evolve as your child grows. Our range is designed to do just that.

including seniors and people with disabilities.

Stand out in the market
as a leader in inclusivity and accessibility

Build stronger connections
with local advocacy groups promoting inclusivity

How can we help?

We can advise on the best way for customers with mobility issues to access and get around your business with ease. Solutions can be as simple as fitting a ramp to overcome any obstacles like stairs or steps. Or in the case of hotels, we can also provide your guests with specialist equipment for the duration of their stay.

Contact us to find out more.

Turning Travel Challenges into Joy with Our **Icon Rehab Power Chair Rental!**

Kim Hope
★★★★★

Thankyou soo much Dubai Mobility! You have made my daughters vacay a miracle hiring your brand new Premium Power Chair. 🥰 From the instant professional liaison in the UK & then on arrival at Dubai airport, Sheryl & her team inc. Mr Fazar have been wonderful. We were met at airport arrivals to hire for 7 days. Thankyou so much! I can highly recommend Dubai Mobility as well as the Premium chair. Kim, UK
